AGRICULTURE

1. Pretty, Jules

Sustainable intensification of agriculture: Greening the world's food economy / by Jules Pretty and Zareen Pervez Bharucha.. - London: Routledge, 2018. 190; (Earthscan food and agriculture). ISBN : 978-1-138-19602-5. 338.16 P92S Q8 50177

Book Description: Sustainable intensification (SI) has emerged in recent years as a powerful new conceptualisation of agricultural sustainability and has been widely adopted in policy circles and debates. It is defined as a process or system where yields are increased without adverse environmental impact and without the cultivation of more land.

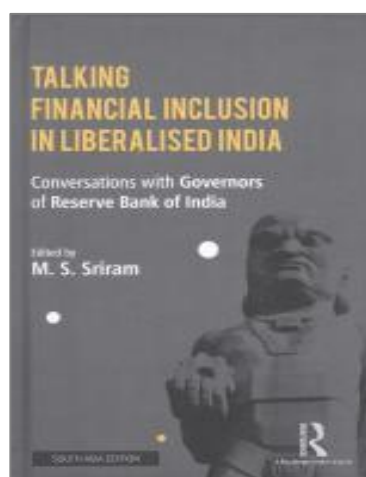

Co-written by Jules Pretty, one of the pioneers of the concept and internationally known and respected authority on sustainable agriculture, this book sets out current thinking and debates around sustainable agriculture and intensification. It recognises that world population is increasing rapidly, so that yields must increase on finite land and other resources to maintain food security. It provides the first widely accessible overview of the concept of SI as an innovative approach to

agriculture and as a key element in the transition to a green economy. It presents evidence from around the world to show how various innovations are improving yields, resilience and farm incomes, particularly for 'resource constrained' smallholders in developing countries, but also in the developed world. It shows how SI is a fundamental departure from previous models of agricultural intensification. It also highlights the particular role and potential of small-scale farmers and the fundamental importance of social and human capital in designing and spreading effective innovations.

BANKS AND BANKING

2. Talking financial inclusion in liberalised India: Conversations with governors of the Reserve Bank of India / edited by M.S. Sriram.. - New Delhi: Routledge India, 2017. xviii,229; South Asia Edition. ISBN : 978-1-138-20467-6. 332.10954 Srt3T Q8 50148

Book Description: This book presents a set of conversations with five former Governors and the present serving Governor of Reserve Bank of India (from 1992 onwards) on the topic of financial inclusion. Two key aspects are introduced in the conversations with each Governor: the initiatives that were undertaken during and their responses to some of the current issues.

BIODIVERSITY

3. Saving biological diversity: Economic incentives / Organisation for Economic Co-operation and Development.. - France: OECD, 1996. 155; Photocopy. 333.95 Or3S N6 50273

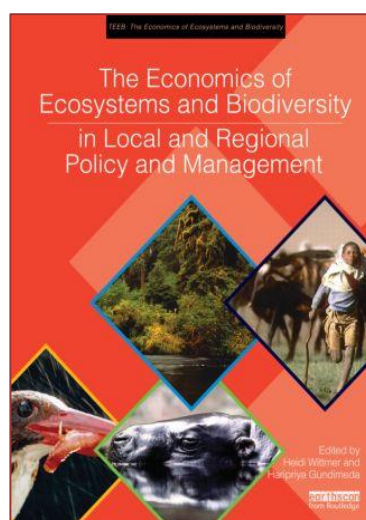

Book Description: Examines the status of biodiversity in OECD countries, the underlying pressures on biodiversity, and the role of incentive measures to help guide policy and human actions towards the conservation and sustainable use of biodiversity. It is the result of a two year project carried out by an OECD Expert Group on Economic Aspects of Biodiversity, with contributions from many recognized experts in the field and other international organizations.

ECOLOGY

4. Economics of ecosystems and biodiversity in local and regional policy and management / edited by Heidi Wittmer and Haripriya Gundimeda.. - London: Routledge, 2012. xxiii,351; An output of TEEB: The economics of ecosystems and biodiversity. ISBN : 978-1-138-10761-8. 333.95 W78E Q2 50151

Book Description: In this volume of the TEEB (The Economics of Ecosystems and Biodiversity) publication series, the key concepts of the project are applied to local and regional policy and public management. The aim is to show that by taking nature's benefits into account, decision makers can promote local development to ensure human well-being and economic growth and stability, while maintaining environmental sustainability.

The book explores the potential for local development provided by an approach based on nature. It offers examples of successful implementation of this approach from across the world, highlighting the importance of local decision making in management and planning. It provides tools and practical

guidance for reform, and throughout the volume the economic benefits of environmental consideration at a local level are expounded.

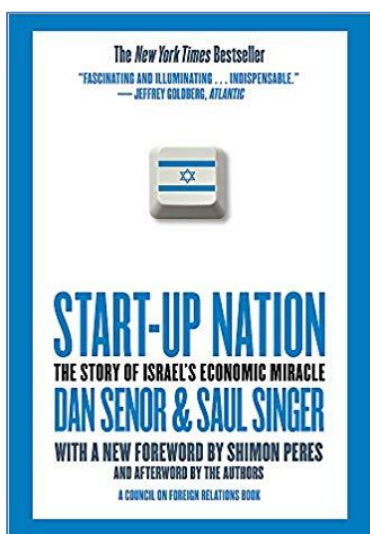

This book is intended to offer inspiration and practical suggestions for the improvement and sustainable management of the environment and human well-being. The local aspect of this book complements the focus of the previous three volumes, completing the set to provide a comprehensive approach to simultaneously improving and maintaining economic and environmental stability, as well as human well-being.

ECONOMIC DEVELOPMENT

5. *Senor, Dan*

Start-up nation: The story of Israel's economic miracle / by Dan Senor and Saul Singer.. - New York: Twelve Hachette Book Group, 2011.xviii-379; ISBN : 978-1-4555--0239-4. 330.9 Se5S Q1 50134

Book Description: Start-Up-Nation addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK?

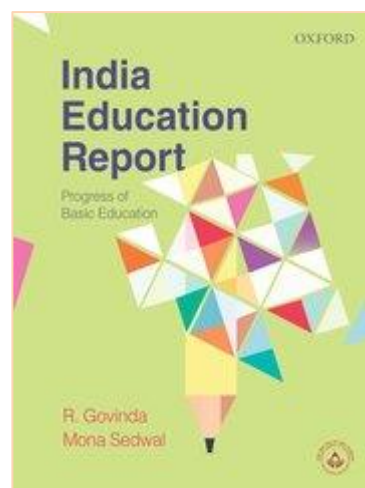

With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting.

As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

EDUCATION

6. India education report: Progress of basic education / edited by R. Govinda and Mona Sedwal.. - New Delhi: OUP, 2017.xxi,265; ISBN : 978-0-19-947471-4. 370.954 R111 Q7 50179

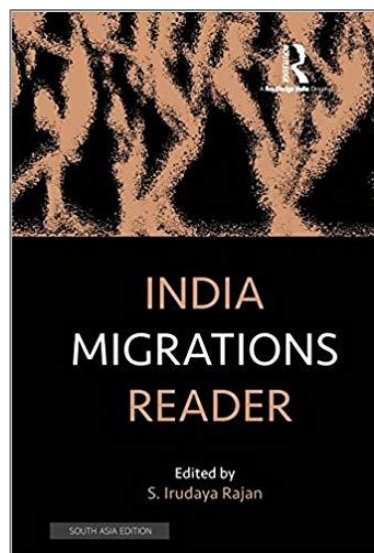

Book Description: With the 86th amendment to the Constitution in 2002, India created a new vision and framework for providing elementary education for all children as a fundamental right. This was fortified with the adoption of the Right to Education of Children to Free and Compulsory Education (RTE) Act in 2009. The Sarva Shiksha Abhiyan (SSA), launched in 2000, offered the operational arrangement for realizing this goal.

Tracing the country's progress in elementary education, India Education Report presents an exhaustive analysis of the subject highlighting achievements and issues that remain unresolved. The volume contains scholarly reviews on carefully chosen themes ranging from pre-school education to adult education and examines governance and financing of education as public provision. Quality, including teachers and their professional development, and education of the marginalized form the core concerns that run through all the thematic reviews. State-specific case studies in the report illustrate successful strategies as well as multiplicity of problems of implementation from a holistic perspective. Presenting a comprehensive view of the obstacles to and development of primary education in India, the report evaluates the ongoing policy initiatives and programmes in this field.

EMIGRATION AND IMMIGRATION

**7. India Migrations Reader / edited by S Irudaya Rajan.. - New York: Routledge India, 2017. x,188;
ISBN : 978-1-138-21962-5.
304.80954 R13I Q7 50280**

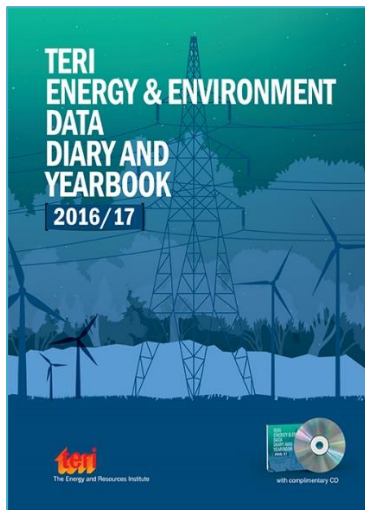

Book Description: This volume brings together critical and landmark studies in Indian migration. It covers a range of key themes - emigration policy in countries of destination and origin, development and remittances, gender issues, impact of the global financial crisis, conflict, and inclusive growth; looks at new and emerging patterns in Indian migration, and includes essays by major scholars in the field. The book will be useful to scholars and researchers of development studies, migration and diaspora studies, economics and sociology. It will also interest policymakers and government institutions working in the area.

ENERGY

8. The Energy and Resource Institute

**Teri energy and environment data diary and yearbook 2016/17 (With CD) / The Energy and Resource Institute.. - New Delhi: TERI, 2018.xxv,260;
ISBN : 978-93-8653-013-4.
338.47621303 T19T Q8 DS50150**

Book Description: TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household), and local and global environment sectors (environment and climate change). The publication also provides a review of the government policies that have implications for the sectors of the Indian economy.

In TEDDY, an account of India's commercial energy balances is given, which provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working in the energy sector. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an

interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors.

FINANCIAL CRISES

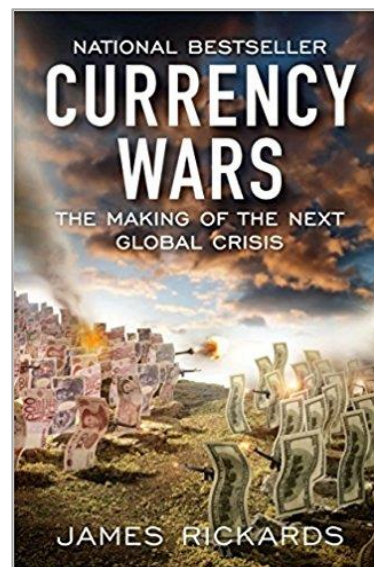

9. Rickards, James

Currency wars: The making of the next global crisis / by James Rickards.. - New York: Portfolio/Penguin, 2012.xvii,296; National bestseller.

ISBN : 978-1-59184-556-0.

332.4 R42C Q2

50153

Book Description: Currency Wars: The Making of the Next Global Crisis takes the readers back to the late 1960s and early 1970s crisis, when the then President of US, Nixon, imposed price controls to end the currency war. Currency crisis has negative impacts like disturbance in the economic cycle, loss of faith in the prevalent economic system, abnormal inflationary and recessionary trends, and economic collapse. It needs to be controlled in order to avoid disastrous consequences.

The ghosts of past currency wars are still haunting the world, and there is another war on its way, the impact of which could be much more deadly. In *Currency Wars: The Making of the Next Global Crisis*, the author throws light on the fact that if lessons from past actions are not adopted and implemented, the US could face its worst crisis ever.

The author highlights the psychology behind the working of public policies, and emphasised the importance of a balanced and constructive course of action. The reprint edition of this book was published by Penguin USA in 2012, and is available in paperback format.

INTERGOVERNMENTAL FISCAL RELATIONS

10. Bhattacharjee, Govind

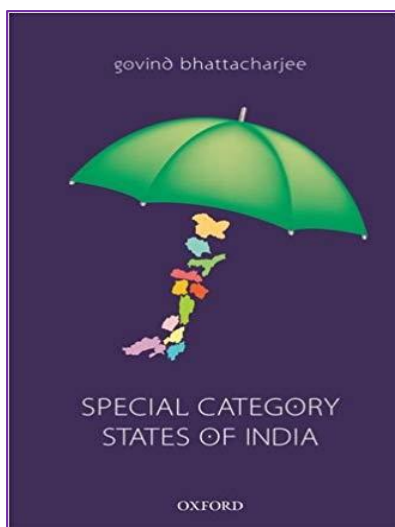

Special category states of India / by Govind Bhattacharjee.. - New Delhi: OUP, 2016.

xxiii,507;

ISBN : 9780199460830.

336.1850954 B46S Q6

50149

Book Description: Eleven economically backward hill states of India, sharing international boundaries, comprise the 'Special Category States'. Being geographically isolated from the rest of the country, and lacking in resources, they suffer from various drawbacks. Economic growth in many of these states has also been stymied by prolonged phases of violent militancy.

To address their problems, these states have been awarded the 'Special Category Status' by the Centre, an extra-constitutional arrangement that gives them access to liberal central plan assistance. Under the existing provisions, which have a weak accountability structure, these states will permanently remain 'special category states', irrespective of their fiscal, financial, and socio-economic performance. Now that fresh demands are being raised by some states for this status, these issues are assuming increasing importance.

In this book, Bhattacharjee explores the reality of these states in the context of asymmetric federalism, going down to the roots of their backwardness. By analysing meticulously collected data, he evaluates their socio-economic progress as well as public financial management ever since the status was first awarded in 1969.

MACROECONOMICS

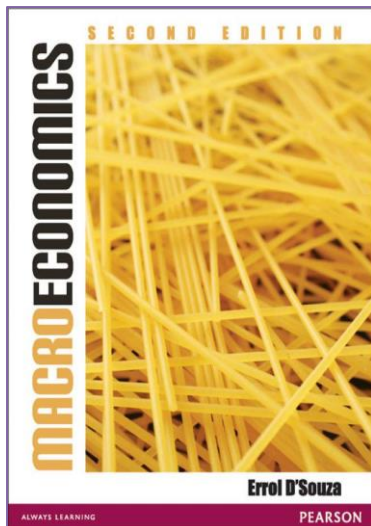

11. D'Souza, Errol

Macroeconomics / by Errol D'Souza.. - 2. - Noida: Pearson India Education Services Pvt. Ltd, 2012.xxviii,427;

ISBN : 978-81-317-6101-4.

339 D84M Q2

50155

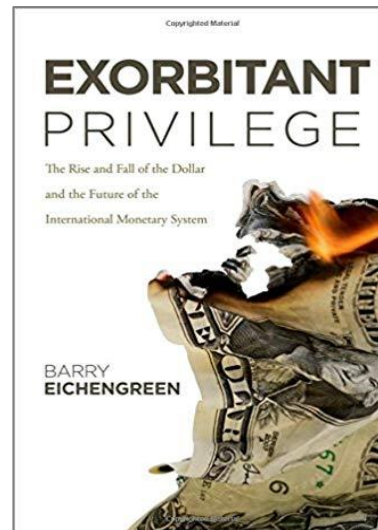

Book Description: The revised and updated second edition of Errol D'Souza's *Macroeconomics* presents the connections between theoretical frameworks and the actual behaviour of the economy in a more comprehensive manner. It enables instructors to teach relevant concepts within the context of both the Indian and the global economy, and at the same time provides policymakers with material from current research in macroeconomics.

MONEY

12. Eichengreen, Barry

Exorbitant privilege: The rise and fall of dollar and the future of the international monetary system / by Barry Eichengreen.. - Oxford: OUP, 2012. 226; ISBN : 978-0-19-9642-47-2. 332.4973 Ei2E Q1 50154

Book Description: Recent events in the US--high unemployment, record federal deficits, and unprecedented financial distress--have raised serious doubts about the future of the dollar. So profound has been the impact that some say the dollar may soon cease to be the world's standard currency. Is the situation that bad? In *Exorbitant Privilege*, one of our foremost experts on the international financial system argues that while the dollar is bound to lose its singular status to newcomers like the Euro and the Chinese Renminbi, the coming changes will be neither sudden nor dire. Barry Eichengreen puts today's crisis in historical context, revealing that only after World War II, with Europe and Japan in ruins, did the dollar become the world's monetary lingua franca--the reserve currency of the world's banks and the kind of cash accepted virtually everywhere. Now, with the rise of China, India, Brazil and other emerging economies, America no longer towers over the global economy like before. And the U.S. itself faces very serious economic and financial challenges as it contemplates its medium-term future. But despite this, Eichengreen concludes, predictions of the dollar's demise are greatly

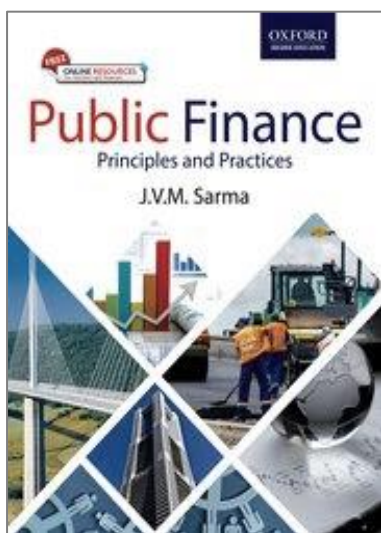

exaggerated. The paperback edition features a new afterword that takes the story up through 2012.

PUBLIC FINANCE

13. Sarma, J.V.M.

Public finance: Principles and practices / by J.V.M. Sarma.. - New Delhi: OUP, 2018. xx,364; ISBN : 978-0-19-947961-0. 336 Sa7P Q8 50178

Book Description: The textbook of Public Finance: Principles and Practices, basically intended for students of MA and research scholars, specializing in public finance, aims to make the students understand the institutional and practical aspects of the subject. It is designed to provide the necessary tools and conceptual framework to understand the fiscal situations around the world.

The book is divided into 9 modules comprising 27 chapters, and includes most of the theoretical as well as practical aspects. The modules are The Basics, Public Expenditure, Public Revenue, Taxation of

Income and Wealth, Public Revenue—Indirect Taxes, Public Revenue—Non-taxes, Role of Fiscal Policy and Public Debt, Federal Fiscal Issues, and Macro-fiscal Management. The book covers several contemporary public financial issues relating to taxation, public debt, FRBM, GST, and international taxation.

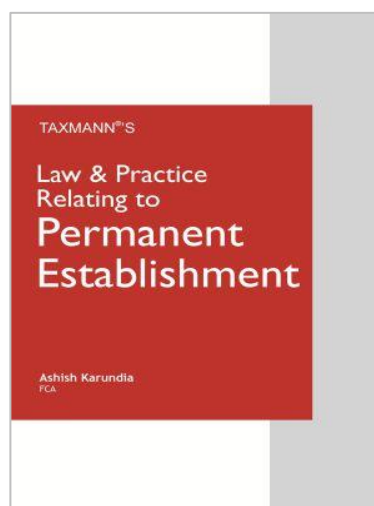

With its lucid language, interspersed with several real-life examples and figures, the book will be equally useful for students and policy makers and those conducting policy training programmes.

TAXATION

14. Karundia, Ashish

Law and practice relating to permanent establishment / by Ashish Karundia.. - New Delhi: Taxman Pub., 2015. I-24,330; ISBN : 978-93-5071-740-0. 341.75 K14L Q5 50152

Book Description: A Comprehensive Commentary on Law Relating to Permanent Establishment

The book thoroughly discusses practical implications of various types of permanent establishments, including Fixed Place

Permanent Establishment [Article 5(1)], Construction Permanent Establishment [Article 5(3)], Service Permanent Establishment [Article 5(3)] and Agency Permanent Establishment [Article 5(5)]. The book also discusses the relationship between Article 5(1) and Article 5(2).

An in depth analysis of more than 400 judicial and administrative decisions from 33 countries, with emphasis on the Austria, France, Germany, India, Netherlands, Spain and United States of America.

Drawing on case law, administrative practice, and business decisions in numerous jurisdictions, the book discusses the permanent establishment criteria under conditions of e-commerce and the service economy.

The book examines in depth the practical implications of various issues including:

- Tangible v. Intangible place of business in prevailing e-commerce scenario;
- Time duration where outsourcing or sub-contracting is done;
- Man days v. Solar days;
- Disposal right over the place of business;
- Core business activity v. Auxiliary or preparatory activity;
- Connection between place of business and carrying on of business;
- Start and end of permanent establishment;
- Multiple permanent establishments;
- Construction permanent establishment: Deeming fiction or exception to Article 5(1);
- Supervision activity and sub-contracting;
- Secondment of employees;
- Stewardship or shareholder activity;
- Status of the agent in the source country;
- The differences between civil law and common law concepts of representation;

- Authority to conclude contracts v. Maintenance of stock v. Securing of order
