

National Institute of Public Finance and Policy (NIPFP), in collaboration with auctusESG, Carbon Markets Association of India (CMAI) and Invest India is proud to unveil our latest research report, "Carbon Markets as a tool for Climate Financing: The India Story" launching on 10 July 2024.

This report explores the pivotal role of carbon markets with a specific focus on India's dynamic landscape. The report is a culmination of extensive research, stakeholder consultations and expert insights into:

- Carbon markets and policy landscape
- Challenges faced by carbon markets - global and developing markets
- Impact of global developments on India
- Key developments - policy level and sector level

Please register for the webinar by filling out the form here: <https://lnkd.in/g7f5ZSqj>
